## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-2 and 6, drawn to recombinant proteins and kits containing same, classified in class 530, subclass 350.
- II. Claims 3-5, drawn to polynucleotides and vectors containing same, classified in class 536, subclass 23.72.
- III. Claims 7-9, drawn to immunoassays, classified in class 435, subclass 7.1.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are separate and distinct from each other, as they comprise differing biochemical and physical entities having differing properties and uses. Invention II is drawn to nucleic acids, whereas Invention I to proteins.

Inventions I and III are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the proteins of Invention I can be used in other methods such as antibody production.

Invention II is separate and distinct from Invention III, as the nucleic acids of Inventions II cannot be used in the methods of Invention III.

Art Unit: 1645

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
